BULGARS FLEE IN  
MACEDONIA DRIVE

Allies Press Ahead on Whole  
125-Mile Front in Big  
Offensive

ONE BATTLE LASTED  
THIRTY-SIX HOURS

Clash Resulted in Enormous Losses to the Bulgarians, Who Are Reported in Full Retreat, Pursued by the Allied Forces.

PARIS, Sept. 13.—On a front which with its convolutions, measures close to 125 miles the allies are hammering the Bulgarians in Macedonia. Activity is reported as far west as Banica, west of Lake Ostrovo, and as far east as the eastern bank of the Struma. All along this extended line the Bulgarians fared badly.

At the extreme west the Serbian artillery was very active against Banica. Sixty miles to the east, as the crooked battle front measures the distance, a lively artillery duel is in progress near Lake Doiran, and a systematic bombardment of the Bulgarian positions at Makukovo is in progress. Makukovo is just west of the Vardar, and up the Vardar valley the allied strategy is said to contemplate its principal advance.

Further to the east again the Bulgarians suffered their greatest defeat, where, according to the French official announcement, the allied troops took all the Bulgarian trenches on a front of two miles and to a depth of 800 yards. Some prisoners were taken in this battle, which, according to unofficial despatches from correspondents, lasted thirty-six hours and resulted in enormous losses to the Bulgarians, who are reported in full retreat, pursued by the allies.

At the allies' extreme right the British also pushed forward successfully. The troops which crossed the Struma yesterday took trenches today on the eastern bank. The enemy suffered heavily by rifle and artillery fire during his retirement and again was punished severely when making counter attacks. The British took the village of Nevelen by assault.

The official report from Berlin as received here asserts that the Bulgarians were successful on the Struma front, but says a lively artillery duel is in progress in the Vardar sector.

The Petit Parisien learns from a semi-official source that the Bulgarians have evacuated all the forts at the Greek seaport of Kavala, which they occupied last month. The forts were of no further use to them, having lost their military value upon the arrival of the warships of the allies.

CHIROPODY and Shampoo parlors. Hair goods, made up to order. Mrs. E. P. Bailey, 117 Main St. Phone. 157-11

to win in life insurance, should bear in mind they have to live to earn their pay. Monthly income life insurance pays the income the earner did not live to earn. National Life Ins. Co. of Vt. (Mutual). ALBERT C. LAIRD, Special Agent, 8 Crosby Block.

## HAIR 1907 TONIC

Ten Years Old This Month

Guaranteed for 10 years to change gray hair to its natural color, and never a bottle returned. 51 Main St. \$1 A BOTTLE Brattleboro

## HORTON D. WALKER

EVERYTHING ELECTRICAL

Brattleboro, Vt.

Henry W. Keyes, will resign because of his candidacy for the governorship of New Hampshire.

The meeting will be spirited. If the protective committee contrives to change the board of directors, the question will next arise as to whether the Connecticut River shall link up with some other railroad which can guarantee its notes, or whether it shall go with the Boston & Maine.

Boston men signing the circular notice asking for proxies sent out by the protective committee are Arthur Adams, vice president of the New England Trust company; Henry P. Binney, Brown Brothers & company and Roger F. Hooper, an attorney.

TO FORM FARM AND  
BUSINESS UNION

Program for Conference to Be Held in Springfield Friday and Saturday Announced.

SPRINGFIELD, Mass., Sept. 13.—Announcement of the program for the New England farm and business conference in the municipal auditorium in this city on Friday and Saturday next was made today. Contrary to the conventional rule for such gatherings, this will be almost wholly a deliberative assembly. Its prime purpose is the organization of a permanent New England Farm and Business union.

The secretary of the committee which issued the call for the conference reports that so many of the letters of acceptance contain suggestions of topics for discussion that the committee has decided to invite the men who will be present to conduct the sessions largely according to their own ideas, under the guidance of a chairman who will keep the business in hand always before the house.

Many of the letters received by the committee lay emphasis on one of the main ideas of the assembly as expressed by Theodore N. Vail, the need of establishing in New England of such a clearing house as the Eastern States exposition will provide for the transfer of the progressive thought and methods of the enterprising communities to those not yet awake to their possibilities, thus making all New England as advanced as the best of it.

The conference will have the active assistance in the conduct of its sessions of the members of the committee, Theodore N. Vail of Vermont, E. Bertrand Pike of New Hampshire, William T. Gupitt of Maine, Wilson H. Lee of Connecticut, R. Livingston Beckman of Rhode Island and Nathaniel I. Bowditch of Massachusetts.

## WANTS 50,000 COMFORT BAGS.

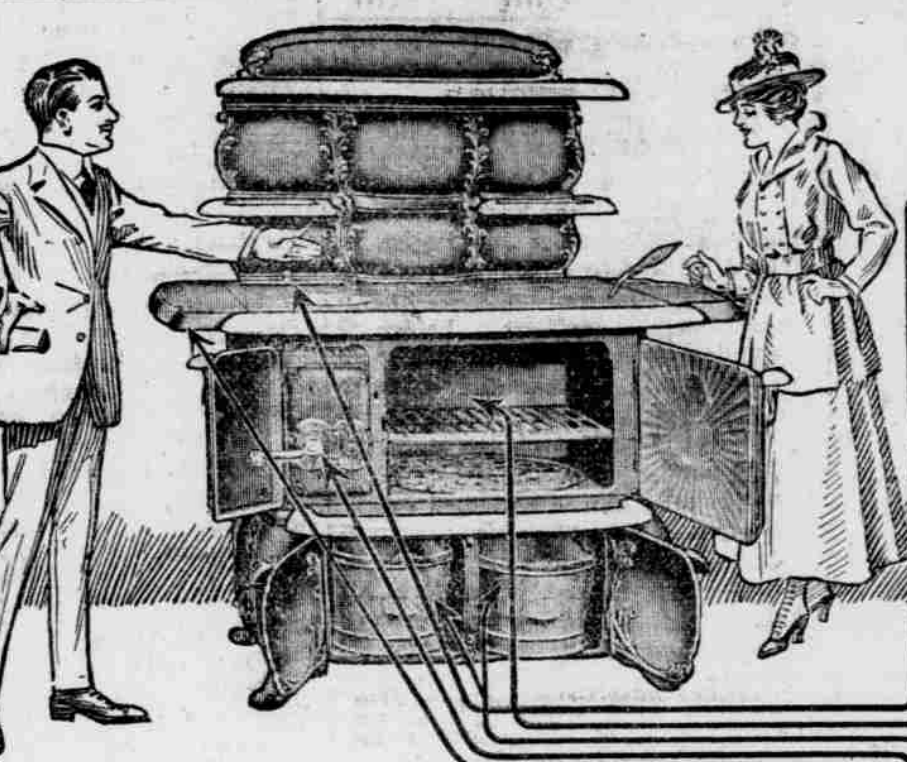

Paris Office of American Fund for French Wounded Sends Cable.

A cable has been received from the Paris office of the American Fund for French Wounded asking for 50,000 comfort bags to be distributed among the wounded soldiers. These bags may contain any six of the following articles: Pair of socks (or muffler), razor (or pocket knife), handkerchief, pencil and writing pad (or post cards), pipe (no tobacco), mouth organ or game (no playing cards), box of hard candies (or bouillon cubes), wash cloth (knit, or Turkish toweling, made like a fingerless mitten) and a cake of soap.

These bags can be made about 1088 inches of any cotton, cloth or denim. The card of donor, with address and a small American flag are especially requested. These bags should be sent to the office of the American Fund for French Wounded, 396 Boylston street, Boston, or to A. F. F. W., office, 8 East

Ch. Hush!

An authority on zoology, Ellen V. Vin, author of "From Jungle to Zoo," says that there are only two absolute dumb animals in the world. They are the giraffe and the kangaroo.

The Single Damper  
One single motion of an always cool knob regulates fire and heat. Bakes, cooks and kindles—one motion, three results.

The Crawford Oven  
has no "secret" quick or slow corners, because heat is distributed evenly—better cooking assured—no waste.

The Convenient Ash Hods  
are interchangeable. As one empties the other fills up. Empty ashes and bring back coal in one trip.

The Outside Cogwheels  
make it easy to tend a Crawford. No ash no coal dust—no danger from live coals.

The Removable EndShelves  
are another of the 20 exclusive Crawford features. Investigate these and the many other unique and distinctive superiorities.

Madam, there's no range  
like this in the world

See that Damper. It automatically regulates the oven and the fire. It places the Crawford Range in a class by itself.

Those scientifically arranged heat flues distribute the heat evenly in a Crawford Range. You can't have anything but perfect cooking in a Crawford.

The Damper and the Flues make

Crawford  
Ranges

perfect from a constructional point of view. They give you more oven heat per pound of coal than any other stove on the market. Then there are those interchangeable ash hods! One full of coal, the other receiving the ashes. As one empties the other fills up. One trip to empty the ashes and bring back the coal.

The damper which "bakes," "checks" and "kindles" with one motion!

The flues that distribute the heat evenly—no waste! And there are at least seventeen other Crawford advantages demonstrating why this Range is superior to all others.

I have been selling Crawford Ranges for years, Madam, and I am certain there is no other like it as a life investment for your home. And I'm quite sure no other Range can equal Crawford satisfaction.

Gas Ovens if desired:  
end (single) or elevated (double).

Sold by W. J. PENTLAND, JR., Brattleboro, Vt.

## WILL TRY TO OUST

## KIMBALL DIRECTORS

Connecticut River Railroad Stockholders to Meet in Springfield, Mass., September 20.

BOSTON, Sept. 13.—Stockholders of the Connecticut River railroad will meet in Springfield Sept. 20 to voice their approval or disapproval of the company's opposing the reorganization of the Boston & Maine system, of which the Connecticut River is a leased part. It was the attitude of the Concord & Montreal and the Connecticut River against the proposed reorganization that precipitated the Boston & Maine into the hands of a receiver.

The Connecticut River fell into the receivership virtually at the same stroke. It had a \$4,000,000 obligation to meet, no funds and no guarantee from the Boston & Maine after that road went under federal court jurisdiction. Until then Connecticut River directors, though not unanimous, had followed the lead of President Kimball of the Concord & Montreal.

There are many stockholders. Half the stock is held in Boston and several directors, unwilling to sink their fate with the Concord & Montreal, will try to reorganize the board of directors so as to eliminate the following of President Kimball.

A protective committee, meeting in Boston, has been formed and is receiving proxies to be voted at the annual meeting. One of the present members,
